

November 29, 2023

TIDES Project Stakeholders,

I am pleased to announce the expansion of the TIDES Board of Directors to five members and the appointment of four new members to the Board. This change in the Board size and appointments of Board members are made consistent with the TIDES Governance Policy¹.

Effective, December 1, 2023, the following members are appointed to three-year terms on the TIDES Board:

- Elizabeth Sall, Urban Labs
- Gabriel Sánchez Martínez, Korbato
- John Levin, Metro Transit (Minneapolis)
- Katrina Kaiser, California Department of Transportation
- Michael Eichler, Washington Metropolitan Area Transit Authority

Each of these individuals brings a wealth of experience and unique insights to the Board and to the TIDES Project and will contribute to the continued growth and success of our shared work. I appreciate each new members willingness to take on this role and their commitment to advance our shared work. And I appreciate the efforts of all TIDES Contributors and the entire TIDES Project community to continue our work.

Sincerely,

John Levin
TIDES Board
